

Contact Information

Any technical issues with HiSeasNet should be sent to the HiSeasNet technical team at hiseasnet@ucsd.edu. Sending to this address instead of an individual allows issues to be addressed more quickly by the first person to get the email. If you need to speak with someone right away, try our group number, +1-858-822-3356.

The principle investigator of the project is Dr. Bruce Appelgate, associate director, Ship Operations and Marine Technical Support, Scripps Institution of Oceanography at UC

San Diego. HiSeasNet's original PI, [Dr. Jon Berger](#), remains associated with the project in an advisory role. If your question is related to administration, paperwork, money, or otherwise, try sending mail to hiseasnet-business@ucsd.edu and someone will get back to you.

Much of the satellite equipment used in HiSeasNet is provided by our hardware vendor, [CommSystems](#). The sales contact there is [Liane Schreffler](#). If you are in need of parts, new gear, spares, etc. please talk to Liane to get a quote.
